Trustees.

Officers of the Board.

REV. W. H. McINTOSH, President;
J. B. LOVELACE, Secretary;
D. R. LIDE, Treasurer.

FIRST DIVISION—Whose term of office will expire in 1871:

H. TALBIRD,	W. W. WILKERSON,	J. G. SHORTER,
C. C. HUCKABEE,	J. F. BAILEY,	E. B. TEAGUE,
W. P. CHILTON,	P. P. MILLER,	T. H. WATTS.

SECOND DIVISION—Whose term of office will expire in 1873:

W. B. MODAWELL,	B. JONES,	L. W. LAWLER,
J. B. LOVELACE,	R. H. LEE,	W. S. BARTON,
J. W. CRENSHAW,	S. HENDERSON.	

THIRD DIVISION—Whose term of office will expire in 1875:

W. H. McINTOSH,	E. A. BLUNT,	J. G. APSEY,
J. H. LEE,	JOHN HARALSON,	JNO. MOORE,
P. KING,	L. M. STONE.	

Faculty.

REV. SAM'L R. FREEMAN, President,
And Professor of Theology, and Moral and Mental Philosophy.

ED. QUIN THORNTON, A. M.,
Professor of Chemistry, Natural History, and Modern Languages.

THOS. J. DILL, A. M.,
Professor of Greek and Latin Literature.

JOHN H. JONES, A. M.,
Professor of Mathematics.

Professor of English Literature.

J. B. VAIDEN, A. M.,
Principal of Preparatory Department.

Graduates.

CHARLES M. FOUCHE.....	Knoxville, Tenn.
THADDEUS D. JONES.....	Marion, Ala.
ELBERT M. VARY.....	Marion, Ala.
THOMAS J. WHITE.....	Uniontown, Ala.

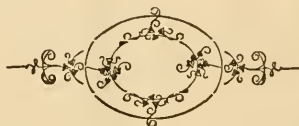

Admission.

1. Applicants for admission must furnish evidence of good moral character, and produce a certificate of honorable dismissal from the Institution of which they were last members.

2. Candidates for admission to the Sub-Freshman Class must sustain a creditable examination in the Common English Branches, McClintock and Crooks' First Book in Latin, Latin Grammar, Cæsar, Sallust, McClintock and Crooks' First Book in Greek, a Higher Arithmetic and an Elementary Algebra to Simple Equations. For admission to advanced standing, candidates must sustain an examination on all the studies previously pursued by the Class they propose to enter.

3. Students are admitted to pursue an irregular course. Such students, however, are required to take a sufficient number of studies to occupy their time profitably, and rectle in such regular classes as they are qualified to enter.

4. The following Text-Books are recommended for use by our students and by those who purpose to enter our Institution, viz: Robinson's Higher Arithmetic and Elementary Algebra; Harkness' or Andrews and Stoddard's Latin Grammar, Hadley's Greek Grammar; and for the Latin and Greek Classics, Weale's Classical Series.

Courses of Study.

Sub-Freshman Class.

FIRST TERM.

Elementary Algebra, as far as Evolution.
Latin, Cicero's Orations.
do. Harkness' Introduction to Latin Prose.
Greek, McClintock and Crooks' First Book.
English Grammar.
First Lessons in English Composition.

SECOND TERM.

Elementary Algebra Completed (Robinson's).
Geometry, Davies' Legendre, Three Books.
Latin, Æneid of Virgil.
do. Harkness' Introduction to Latin Prose.
Greek, McClintock and Crooks' First Book.
English Grammar and Composition.

Deb. Declamation throughout the year.

Freshman Class.

FIRST TERM.

Algebra Completed, Davies' Bourdon.
Latin, Odes of Horace.
do. Arnold's Latin Prose.
Greek, Xenophon's Anabasis.
Ancient Geography.
English Composition and Rhetoric, Quackenbos.

SECOND TERM.

Geometry Completed, Davies' Legendre.
Latin, Epistles and Satires of Horace.
do. Arnold's Latin Prose.
Greek, Herodotus and Cyropedia.
Grecian and Roman Antiquities.
English Composition and Rhetoric, Quackenbos.

Deb. Declamation throughout the year.

Sophomore Class.

FIRST TERM.

Trigonometry and Mensuration, Davies'.
 Legendre.
 Latin, Livy.
 Greek, Thucydides.
 History.
 French, Knapp's French Grammar.
 do. French Reader, Telemaque.

SECOND TERM.

Surveying and Navigation, Davies'.
 Analytical Geometry, Loomis'.
 Latin, Tacitus.
 Greek, Homer's Iliad.
 History.
 French, Selections from Racine, Moliere, Corneille and De Stael.

⌘ Declamation throughout the year.

Junior Class.

FIRST TERM.

Calculus, Differential and Integral—Loomis'.
 Latin, Terence.
 Greek, Euripides—Medea.
 Rhetoric.
 Natural Philosophy.
 Chemistry, Inorganic.

SECOND TERM.

Mechanics, Peck's or Snell's Olmsted.
 Latin, Juvenal.
 Greek, Sophocles' Oedipus Tyrannus.
 Logic.
 Chemistry, Organic.
 Zoology, Agassiz.

⌘ Original Declamation throughout the year.

Senior Class.

FIRST TERM.

Astronomy Commenced, Brocklesby.
Philosophy of Rhetoric.
Botany.
Mineralogy.
Moral Science.

SECOND TERM.

Astronomy Completed, Brocklesby.
Political Economy.
Outlines of English Literature, Lesture's.
Geology.
Mental Philosophy, Haven's.

Original Declamation throughout the year.

Scientific Course.

The same as the above, with the exception of Greek.

Theological Department.

In connection with the Literary Courses, instruction will be given to those who desire to receive it in a course of Theological Studies occupying three years. This Department is now no longer in prospective. It is actually in operation. It will be seen, from our Summary of Studies, that nine Students have received instruction in this Department. Ten have been registered as preparing for the ministry, and therefore entitled to receive instruction gratuitously in every Department of the Institution. This must be considered very encouraging as a beginning—for it must be recollected that, since the war, this Department was not revived until during the present session.

Howard College.

Buildings.

The main College edifice contains a large Chapel, Library, Apparatus Rooms, Laboratory, Halls, Offices, &c. The Dormitory Buildings, comprising the North Hall and the South Hall, contain forty-four Dormitories, eighteen feet square, together with Recitation Rooms.

Recitations.

The Bell will be rung at dawn, to rise and dress; and, at sunrise, for recitation and study, to which one hour will be devoted before breakfast. The hours for study, recitation and recreation during the remainder of the day will be regulated with reference to strict economy of time.

Discipline.

Monthly Reports, showing the standing of Students in their Classes and the number of absences from prayers, recitations and rooms during study hours, together with other irregularities, will be sent to parents and guardians.

Apparatus.

The Institution is in possession of an excellent Chemical and Philosophical Apparatus. More than three thousand dollars have been already expended on these Departments alone; and the College is now supplied with better and more expensive means of furnishing experimental instruction in the several branches of Natural Science than ever heretofore. Much of the Chemical Apparatus has been imported directly from Europe for the use of the College; and no pains or expense has been spared to supply the most abundant and valuable means for illustrating this important branch. Not only is the illustrative apparatus complete, but all ordinary appliances for original research and practical investigation are now in the hands of the Professor of Chemistry.

The Philosophical Apparatus is inferior in quality to none in the country. Considerable additions are making in order that this Department may vie with the other in the completeness of its equipments.

The Mathematical Department is supplied with a superior Theodolite Compass, and the usual appliances.

The Astronomical Apparatus consists of such instruments as are ordinarily employed by instructors in this branch. The Telescope is a refractor of six inches aperture, and eight feet five and a half inches focal length. It is

mounted equatorially with finely graduated right ascension and declination circles, and has a highly finished driving clock.

The Geological and Mineralogical Cabinet is sufficiently ample for purposes of instruction. A handsome series of Maps, Charts and Engravings has been procured to illustrate the Lectures on Geology.

Literary Societies.

There are in connection with the College and in successful operation, two Literary Societies—the Philomathic and the Franklin. These Societies are provided with well-selected Libraries; and they must be regarded as valuable aids to the student in the formation of a literary taste, and in affording opportunities for exercise in debate and for obtaining a knowledge of parliamentary rules.

Commencement and Degrees.

1. The Annual Commencement is held on the LAST THURSDAY IN JUNE.

2. No Student is admitted to a Degree or permitted to take any part in the Commencement Exercises, unless he has creditably sustained all his examinations, performed such other exercises as may have been assigned him and settled all College Dues, including a graduating fee of five dollars.

3. Students who have completed the Scientific Course receive, on the same conditions, the degree of Bachelor of Sciences.

Expenses.

IN THE COLLEGE.

Tuition, Incidentals, Room Rent and Fuel (per Term of $4\frac{1}{2}$ Months).....\$50.00

IN THE PREPARATORY DEPARTMENT.

Tuition and Incidentals (per Term of $4\frac{1}{2}$ Months).....\$25.50

Tuition is required in advance; and no deduction is made for absence, except in cases of protracted illness. The Student is charged from the time of entering to the close of the Term, unless, for special reasons, he is admitted for a shorter period.

BOARD IN THE MESS HALL.

The Trustees have opened a Mess Hall in connection with the College, which reduces the price of Board to the actual cost of living. As the best exhibit of the practical working of this system, we append the last Treasurer's Report:

HOWARD COLLEGE, May 13th, 1870.

To the Trustees of Howard College:

GENTLEMEN—The Report of the Mess Club for the last month is as follows:

Receipts, including Balance from last Month.....	\$150.00
Aggregate of Expenditures during the Month.....	99.40

Amount Remaining in the Treasury.....	\$ 50.60
---------------------------------------	----------

The Club numbers fifteen members. The individual expense to each

member has amounted to \$6.62 $\frac{3}{4}$ for the past month, and has averaged \$7.23 per month since the formation of our Mess. The fare has been such as to give general satisfaction.

We are grateful to your body for the opportunity you thus afford to us of economizing our means.

Respectfully, &c.,

JOHN R. BELL, Treasurer.

Those who room in the College may, if they desire it, obtain board in the best private families at from \$12.50 to \$15.00 per month.

Location.

The location of Howard College is all that could be desired. Marion is situated on the Selma, Marion and Memphis Railroad. This Road has been completed some distance beyond Marion, and places this town in direct and daily communication with Selma and the great lines of travel running through the latter place. This renders Howard College quite accessible by railroad from all quarters of this State and from the adjoining States. In addition to Howard College, there are located here two large and prosperous Female Seminaries. The town also contains five Churches—the Baptist, Methodist, Presbyterian, Episcopal and Christian. With these surroundings, and with a population of three or four thousand inhabitants, it is evident that Marion affords the wholesome restraint of a moral and intelligent community, without presenting those extraordinary temptations to young men incident to great centres of trade.
